

How to obtain portrait photographs from your personal image gallery.

1. Follow the link you received
2. Enter the captcha code and your password at the login page
3. Available pictures will be displayed as shown in the image below

'My List' feature for bulk-downloads

4. Click on a picture to check out details

add to list

5. If you haven't purchased that picture yet, you may add it to your list and proceed to the next one. The price is shown at the bottom of the detail view.

add to list

previous / next picture

6. Some pictures may not be edited at the time you visit your gallery. This usually applies for more complex shots (e.g. full body portraits or various models in the picture) when more editing is required.

The raw image status is indicated by

Make your decision based on the model's personal charm and expression, the technical side will be taken over by the editor.

This file will be processed some time after you have sent your list of chosen photographs, and will be available after editing (approx. 24 hrs).

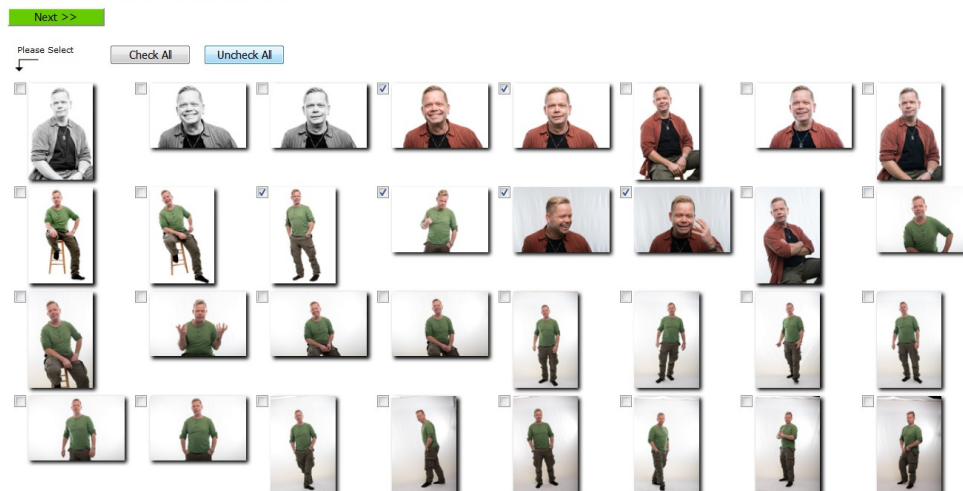

7. Once you have added all your favorite pictures to your list, click the 'My List' icon to confirm and set up the download

go to the overview of your selected pictures

8. Review your selected pictures, add or remove items

Select the pictures you would like to download and hit the "Next" button when you are done. Photos you already have purchased will not be billed again.

9. The final total will be listed, and also the amount of pictures you will receive at a later time.

Now choose the picture size, enter your email address and a **random code word** that will identify you later when you download the zip file.

Once completed you will always be able to download your chosen pictures individually from the main gallery.

The amount of **\$75** will be billed (3 pictures).

3 pictures are not edited yet. You will receive those files in the next 24 hours.

In addition, the photo shooting session will be charged as follows:

photo session, 1 hr:	\$60
lighting setup:	\$40
	<hr/>
	\$100

By pushing the "**Submit now**" button you accept to be billed the amount of **\$175** by **Go Visible Web Development & Photography**.

With the purchase you acquire a royalty-free license as described in **section 1 of the terms & conditions** below, on which you agree by submitting this page.

Terms & Conditions

1. Royalty-free license for photographs purchased and downloaded in the photo store

With the purchase of a photograph the customer acquires a royalty-free license.

The customer is entitled to use, reproduce or display the photograph an unlimited number of times for personal or educational purposes or in connection with the operation of a business, but will not acquire ownership

Submit now >>

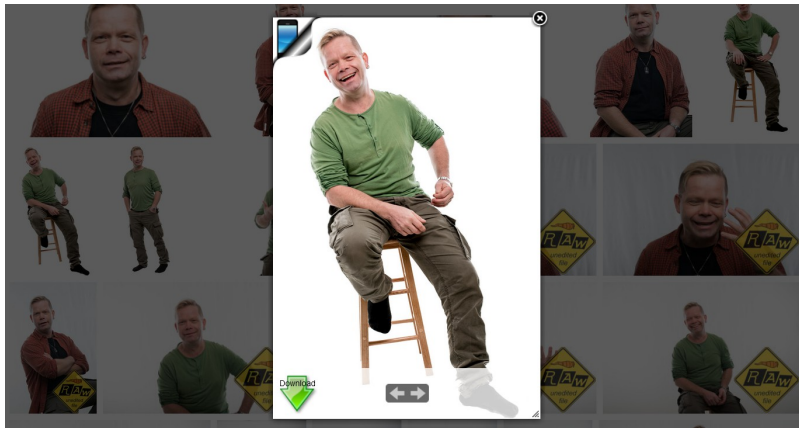

(your form might show a PayPal button for direct payments)

10. After submitting the form you will receive your download link by email. Pictures which need to be edited will follow on the next day.

11. Other download options:

After purchasing a picture, you may download it individually at any time, by clicking on the respective image in your gallery, followed by the download button which now is visible. You always may download pictures in bulk as well, using the 'My List' feature.

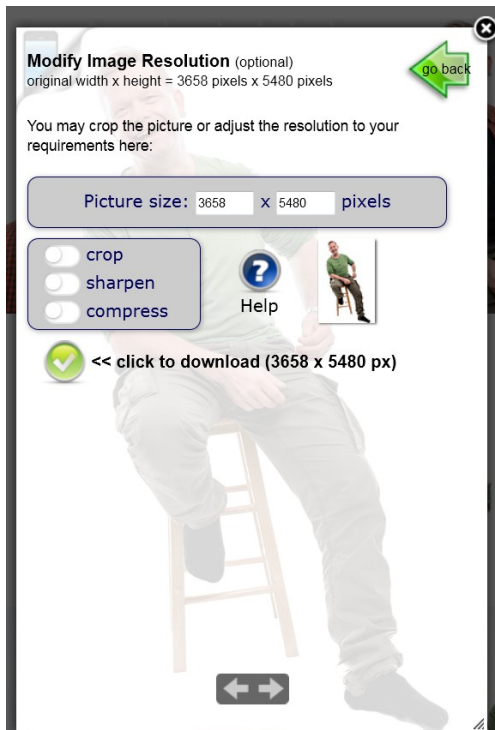

'My List' feature for bulk-downloads in the page header

download icon shows after purchase only

12. Basic image editing

Hit the download button and some basic image editing features become available: Change of image resolution, cropping, sharpening and compress function.

Use the **cropping tool** to trim and remove unwanted portions of a picture.

Sharpening enhances the definition of edges and emphasizes the texture in an image. It can be useful for pictures downloaded in lower resolution.

Compression will **reduce the file size** of your picture but also **decreases its quality**.

It should only be applied on pictures that are used as they are on a **Website!**
Most Content Management Systems (like WordPress) will typically compress a picture after the upload. No precedent compression will be needed therefore.

A picture's **resolution** is defined by its width * height. If only presented on a computer screen, an image 1920 pixels wide will be sufficient.

Photographs used for **Social Media** don't need to be more than **960 pixels** on their long side. **Up to 2048 px** can be uploaded to Facebook.

13. Please note that the 'Add to my list' function, as described under paragraph "5", is not available in mobile view! If you're using a tablet, exit the mobile view by clicking the respective menu tab or choose the 'My List' feature for bulk downloads.
